1 [Ferret: a toolkit for content-based similarity search of feature-rich data](#)

Qin Lv, William Josephson, Zhe Wang, Moses Charikar, Kai Li
April 2006 **ACM SIGOPS Operating Systems Review , Proceedings of the 2006 EuroSys conference EuroSys '06**, Volume 40 Issue 4

Publisher: ACM Press

Full text available: [pdf\(2.04 MB\)](#) Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Building content-based search tools for feature-rich data has been a challenging problem because feature-rich data such as audio recordings, digital images, and sensor data are inherently noisy and high dimensional. Comparing noisy data requires comparisons based on similarity instead of exact matches, and thus searching for noisy data requires similarity search instead of exact search. The Ferret toolkit is designed to help system builders quickly construct content-based similarity search system ...
